

RMC-AERO

THE FUTURE OF LIGHTWEIGHT,
STRUCTURAL CONCRETE

Office: 604-574-1164

19275 - 54 Avenue Surrey, B.C. V3S 8E5

REDEFINE THE WAY YOU BUILD

RMC-Aero, a groundbreaking lightweight, structural concrete engineered to redefine the way you build. Our commitment to innovation and sustainability has led to the creation of a product that combines strength, versatility, and environmental responsibility.

WHY CHOOSE RMC-AERO?

1. LIGHTWEIGHT ADVANTAGE

RMC-Aero is engineered to be significantly lighter - 30% less than traditional concrete, with an average density of 1700Kg/m³, while maintaining exceptional structural integrity. This lightweight feature brings a multitude of benefits, and is ideal for projects with weight limitations seeking lighter & durable concrete.

2. UNCOMPROMISED STRENGTH

While lightweight, RMC-Aero offers the same level of strength and durability you expect from conventional concrete up to 35 MPA . This product can be used in many applications like footing, slabs, walls - the same as the use of any normal weight concrete also for architectural & industrial structures.

3. ENVIRONMENTAL RESPONSIBILITY

We understand the importance of reducing the environmental impact of construction. That's why RMC-Aero is designed with sustainability in mind

- Versatile Eco-Friendly Building: Achieve LEED and green building certifications with a concrete that supports environmental goals.
- Easy pumping for long distances including multiple pumps if necessary.
- Easy finishing for Slabs and flatworks.

SUSTAINABLE
STRUCTURAL
LIGHTWEIGHT

APPLICATIONS

RMC-Aero is suitable for various construction projects, including:

MID AND HIGH-RISE BUILDINGS

Lightweight properties ease construction on upper floors.

BRIDGES & INFRASTRUCTURE

Reduce the load on infrastructure while ensuring structural integrity.

ARCHITECTURAL ELEMENTS

Create stunning designs without compromising on strength.

GET STARTED TODAY

Experience the future of construction with RMC-Aero. Contact us to discuss your specific project needs, explore customization options, and discover how RMC-Aero can revolutionize your construction endeavors.

Choose RMC-Aero for a brighter, more sustainable future in construction.
