CARBON REDUCTION CONCRETE

At RMC Ready Mix, we understand the urgency of reducing carbon emissions in the construction industry. That's why we're proud to introduce RM-CO2, a revolutionary carbon reduction concrete designed to meet your construction needs while significantly lowering your carbon footprint.

WHY CHOOSE RM-CO2?

1. ENVIRONMENTAL RESPONSIBILITY

With RM-CO2, you're not just building structures; you're building a cleaner, greener future. Our innovative concrete formulations reduce carbon emissions by up to 90%, making a substantial positive impact on the environment. A perfect solution to reduce your scope 3 emissions and stay in compliance with dynamic tender pre-requisites, which favor the use of low embodied carbon alternatives.

2. PROVEN PERFORMANCE

Don't compromise on quality or durability. RM-CO2 maintains the highest standards of strength and durability, ensuring your projects stand the test of time.

3. VERSATILE APPLICATIONS

Don't compromise on quality or durability. RM-CO2 maintains the highest standards of strength and durability, ensuring your projects stand the test of time.

4. SUSTAINABILITY CERTIFICATIONS

Our products are designed to meet and exceed industry sustainability standards, making them ideal for green building certifications such as LEED and REAP. All RM-CO2 mixes have certified EPD's affirmed by Climate Earth Inc & American Society for Testing and Materials.

OUR OFFERINGS

Choose from three distinct RM-CO2 offerings, each with varying levels of carbon reduction:

RM-CO2

Carbon Reduction | 30-50% Reduction

Ideal for eco-conscious projects seeking a balance between sustainability and performance.

RM-CO2 PRIME

Carbon Reduction | 50-70% Reduction

Ideal for Projects that demand a higher level of carbon reduction without sacrificing quality.

RM-CO2 MAX

Carbon Reduction | 70-90% Reduction

Ideal for Leading the way in sustainable construction, achieving maximum carbon reduction while maintaining performance.

GET STARTED TODAY

Join us in reshaping the construction industry for a sustainable tomorrow. Contact us to discuss your project's specific needs and discover how RM-CO2 can transform your construction endeavors.
